

ADDENDUM 1

Date: 7 April 2026
Pages: 1
Subject: Addendum 1 to the AAI AM13390 Enhancing sustainable food logistics systems to reduce food loss and waste Short Course Request for Tender of 25 March 2026

Tenderers are advised of the following:

This addendum is openly available to all potential tenderers. It consists of responses to tenderers' questions.

QUESTION 1: Could you please advise on the level of flexibility available in relation to the proposed schedule? Specifically, would there be scope to shift the program commencement to pre-course workshop: October 2026; short course in Australia: November 2026; post-course workshop: February 2027, subject to consultation with DFAT?

ANSWER 1: The preferred schedule is as indicated in the RFT (in-Australia course in August or September 2026) as this schedule suits GOI best and those dates have been included in the promotional materials; however, tenderers can propose an alternative schedule. This is subject to negotiations with DFAT and GOI, noting that late November may not suit GOI as ministry representatives may not be released at the end of the financial year and during budget planning. Tenderers are asked to clearly state their preferred course schedule in the tender proposal. If they wish, tenderers can also nominate their preferred dates and a second-best option.

All other information as set out in the RFT dated 25 March 2026 remains unchanged.
